--------  --- --- -------- --------- -------- --------  ----------------------------------------
```

This file contains longitudinal weights, including general-purpose weights and a series of
replicate weights. All weights have been adjusted for nonresponse. There is one non-zero weight
for each individual who completed interviews in four successive years (current and three preceding
years); there is a missing value (".") for all others. Together, there is one record for every
person who completed an interview in the current year.
